Tournament is double elimination format. Map and game settings will be determined by Lazer Kraze the day of the tournament. MLG settings may be used, but not guaranteed. All players use a temporary profile if they are not using their own hard drive. Any hard drive used must be up to date with updates and patches. Two minutes will be allowed at the start of each round to customize control settings. You will play on the Xbox and in the player position you are assigned. Effort will be made to ensure all players have the same size screen area to play on, but exceptions may occur causing one or more players to have a larger portion of the screen. You may use your own wired controller if you have one. All players will treat each other and the staff of Lazer Kraze with respect, refraining from offensive or derogatory terms. Lazer Kraze may disqualify a player at any time without refund for not following listed tournament rules or at Lazer Kraze's discretion. Prize money and tournament standings are at the discretion of Lazer Kraze. Any disputes will be decided by Lazer Kraze. Entry into the tournament does not guarantee you will be awarded a prize.
